

Experience The Difference™

As an authorized dealer of iHelp+, you'll enjoy one of the most lucrative programs in the industry. You'll also gain access to unparalleled and continuous support and a range of solutions that fit the needs of you and your customers.

Complete Dealer Program Package

You will utilize our iHelp+ 3G mPERS product. The iHelp+ offers the latest in 3G wireless coverage using a nationwide carrier. It is compact and lightweight at under 1.5oz., and loud, clear audio, and voice prompts that enable the user to know the status of their pendant at all times. It has a fall detection system that may be turned on or off by the dealer only.

It also has a GPS location finder and geo-fencing (can also be turned on and off by the dealer only), which enables family, friends, and/or loved ones to be notified if the user steps outside of their pre-programmed 'safe zone'. The unit has a fully supervised battery that will notify the operator, and announce to the user when the battery is low. Enhanced kits even include a Smart charger/Docking station with speaker and microphone. The Smart charger/Docking station enables the user to leave the pendant 'docked' and use a small, remote button that they can wear around the wrist or on a lanyard around the neck.

Plus, everything is included in the price - The exclusive iHelp+™ unit and all accessories (battery charger, battery, power cable, car charging adapter, breakaway neck lanyard, wrist strap, and holster.) A SIM card and nationwide wireless service are also provided at a very attractive wholesale rate. And, the unit comes with a full 1 year warranty.

Some of the exclusive features that are available to you as an iHelp+ dealer are:

Special Equipment Pricing - The lowest in the industry - one-price for complete pre-programmed iHelp+ device and accessories.

Competitive Monthly Nationwide Airtime Rates.

Universal iHelp+ interface for use with virtually any central station/automation software.

iHelp+ Cloud Web Portal - The iHelp+ is easily programmed using our new iHelp™ Cloud web portal. The web portal will enable you to activate, deactivate, reconfigure, and manage your devices and your customer base at any time. Training for both the web portal and the individual units are available. Your iHelp+ account manager will provide you with all the necessary information you will need to get started.

Strong Brand Presence & Corporate Identity - Our customers know us as being a customer service oriented company with quality products. We will help you to promote your brand and assist you in establishing your business as the 'go to' company for iHelp+ mPERS.

Marketing Support & Promotional Kit - We will provide you with the materials and tips you need to create a successful sales and marketing plan. These include brochures, images, business cards, and much more.

Technical Guidance - Whether you need minimal or extensive training, we will assign you an account manager that can assist you whenever you need it.

If you have further questions, or if you would like to demo an iHelp+ device, visit our website at www.ihelpalarm.com or contact us directly at 1-800-254-6163.
